Content

We call to an emergency open assembly tomorrow Monday 13/1 at 18:00 at Kaymakkin regarding the murder of a 24 year old migrant by a cop on 6/1/2025. The event was initially covered up but it has become known that the migrant was hit by a bullet from a police weapon in the buffer zone. We organize our collective resistance to the murderous migration policies. The meeting will be in english and cypriot greek.
