

# Anarchist Perspective (Group)

*Anarchist Perspective* is an anarchist group in Nicosia, Limassol and Larnaca active since 2023.

## Group Identity

Anarchist Perspective is the name of the effort to create an anarchist organization in Cyprus. Its entire organizational theory comes from Especificismo, an international organizational proposal of social anarchism created by the FAU (Uruguayan Anarchist Federation) and developed by the FARJ (Rio de Janeiro Anarchist Federation), but which has now spread to all corners of the globe. At the same time, our organizational effort embraces the short history of anarchism in Cyprus, characteristics of insurrectionary -revolutionary anarchism of the Greek movement (due to the experience of comrades from the Greek anarchist, anti-authoritarian milieu) but also the experience and imperatives of old and contemporary social revolutions.<sup>1)</sup>
