The **Movement's Archive** is an attempt to make the history of the Cypriot radical movement throughout the island available, as it is recorded through its publications, with an emphasis on past decades; but without ignoring recent publications.

We want the material to be made accessible to all through various useful digital forms, keeping in mind the needs of individuals with depreciated eye-sight.

It is important for the archive to last through time, avoiding the physical depreciation of the printed material, but also the use of short-lived non-free digital forms of archiving, that may not be readable by future software. In parallel, the creation of copies of the archive by any individual will be made as easy as possible, in order to target the "single flaw" that could damage the archive irreversibly.
